JERAL TIDWELL

BEST STYLE OR DIE

Volkswagen T6 Jeral Tidwell Limited Edition

it is definitely not another, usual transporter,
but rather a bold combination of the world
of automotive and art.

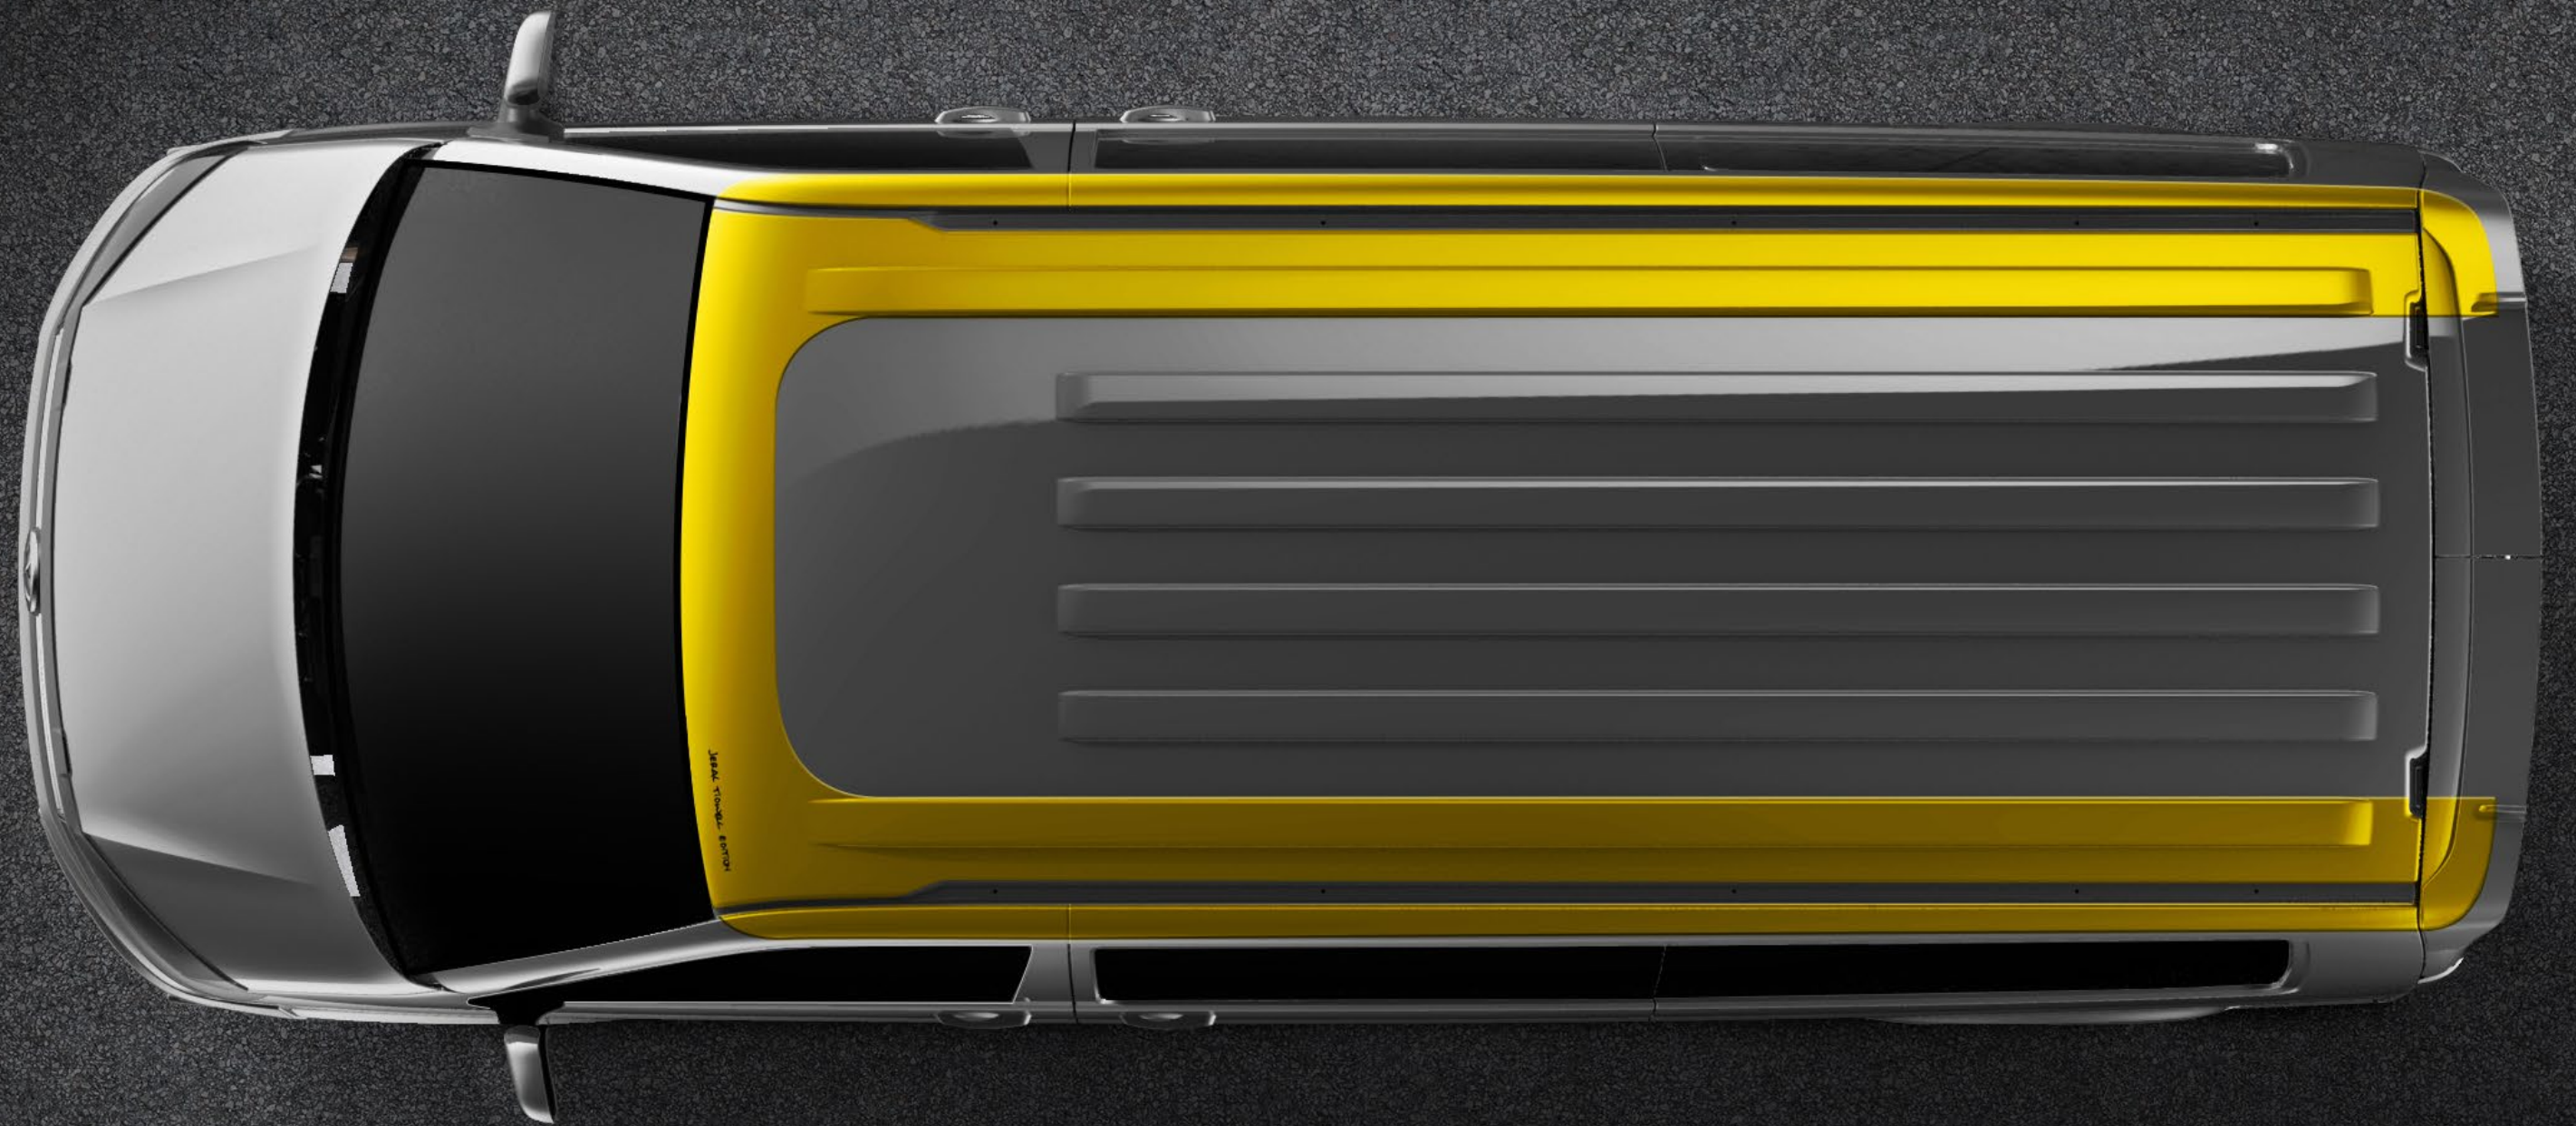

Jeral Tidwell's art abounds in dark motifs on the borderline of the grotesque.

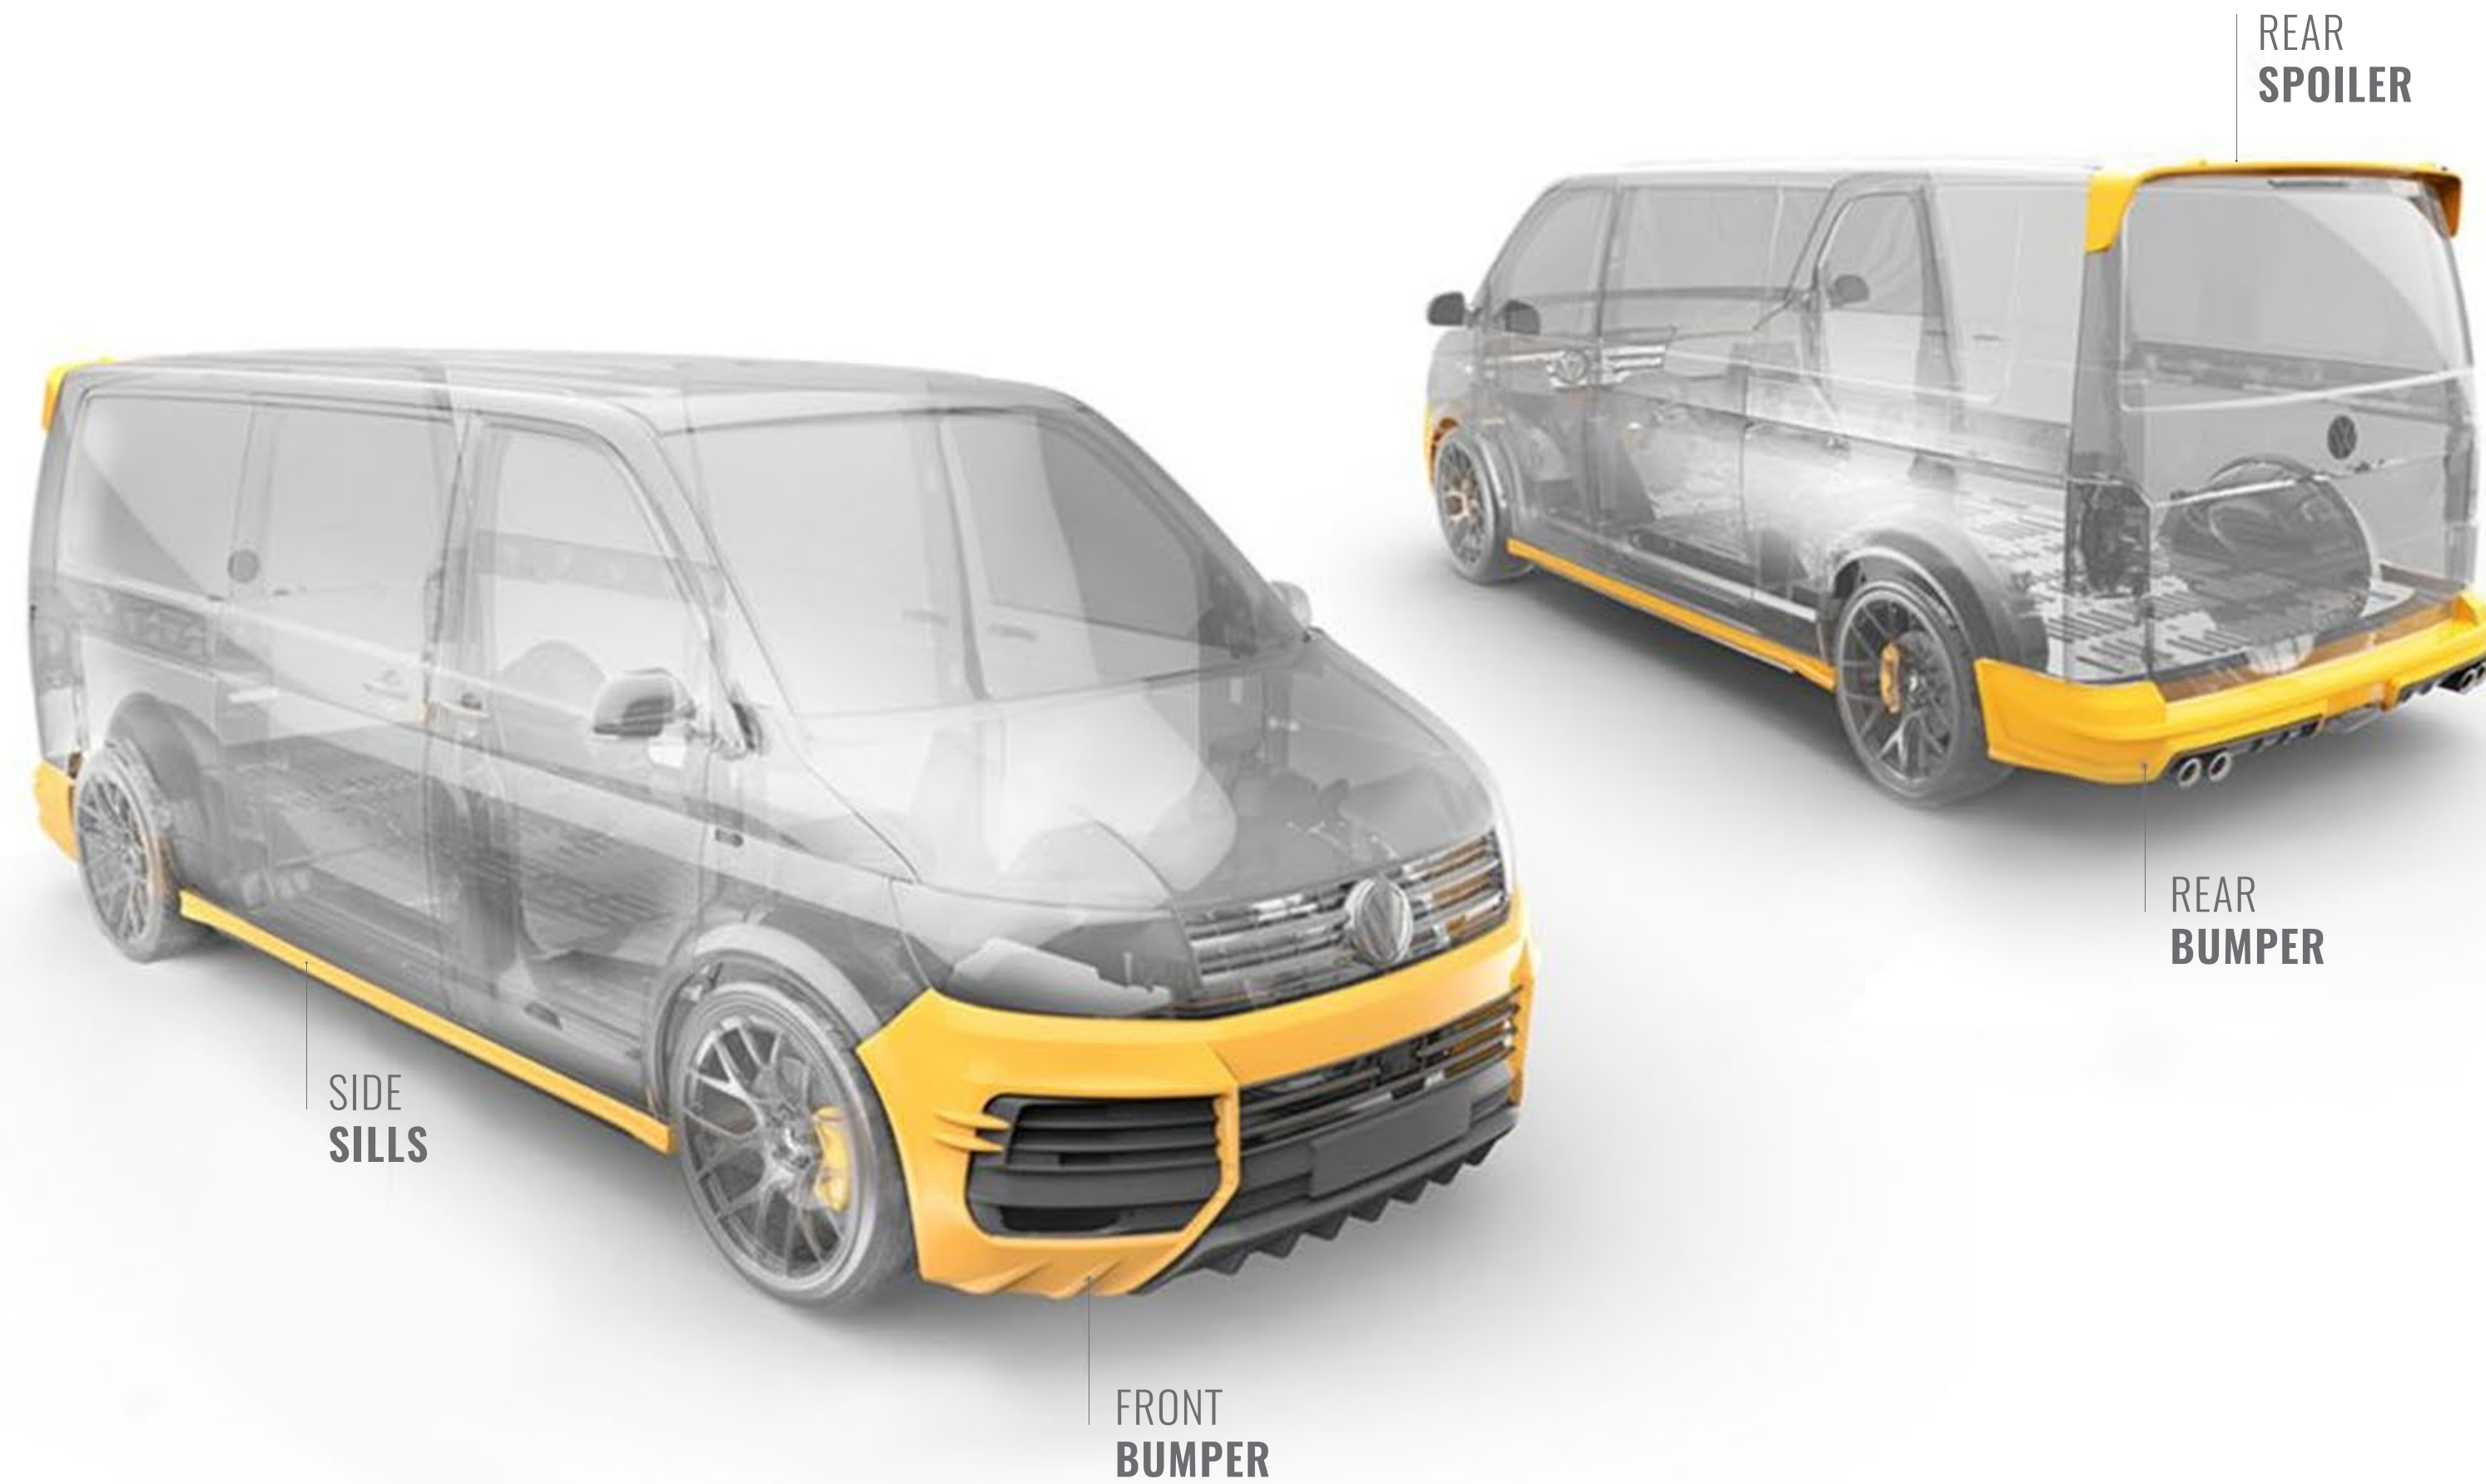

In a funny, often contradictory way, the artist deals with the world of darkness. He gained special recognition thanks to his colorful, extraordinary skulls.

At present, his art activity is present in many fields of art: drawing, graphics, and tattoo art, and now thanks to collaboration with **Carlex Design** - also in the automotive industry.

Implementing the joint VW T6 project
with the artist,

we wanted to break the conventions prevailing
on the commercial vehicle market, going
beyond a safe design, combining it with motifs
inspired by art, and a bit of black humor.
Thanks to this we received a unique van.

EXTERIOR

The car has an original body kit, designed by **Carlex Design**, a double sports exhaust system, lowered suspension and 20 "inch rims.

To emphasize its uniqueness, we limited the production. By creating this project we wanted to reach people who like bold unconventional life, and a car is not only a means of transport for them, but a vehicle for experiencing adventures, providing a dose of positive emotions. In addition, the exterior is decorated with motifs of **Jeral Tidwell's** work and its signature.

INTERIOR

The interior of the car is a mix of luxury and positive energy

taken from the artist. The space is filled with the highest quality nappa leather, large amounts of Alcantara, bold colors and numerous embroidery and embossing. All this let you feel Tidwell's creativity on your own skin.

A close-up photograph of a black leather book cover. The leather has a fine, pebbled texture. Gold tooling is visible, including a large, stylized signature and the words 'JERAL TIDWELL EDITION' in a smaller, sans-serif font. The lighting is dramatic, highlighting the texture and the gold lettering against the dark background.
