# PROJECT SAVAGE

Project Savage is E.C.D. Automotive Design's 150th vehicle, an Ultimate Vehicle Concept with additions that brings features which pushes the limits of vehicle customization, awarding it as the most innovative vehicle ever built by E.C.D.

Project Savage is an eye-catching Custom D110 Ultimate Vehicle Concept that symbolizes the evolution of E.C.D. throughout the years, bringing more innovation to each vehicle while retaining the heritage look of the iconic British classic.

- Six-Speed Automatic Transmission with a GM Shifter

- Corbeau RRS front and middle row seats with Supersoft Black Leather and Scarlet Red Double Diamond Stitching.

- Extended center console featuring wireless charging, AC controls, extra cup holders, and electronic window controls

- Metal Interior components including Handles, lock pins, and cups

## INTERIOR

Pushing the barriers more than one could imagine on the classic D110, the truck has a first of its kind at ECD, hand crafted central console that extends driver functionality and comfort to passengers in the rear seats.

The extended console affords the passengers control over their ventilated seats, power windows, climate control and also the ability to wirelessly charge their cell phones. In car WiFi makes this a truly connected 110. The black metal interior trims bring an element of refined ruggedness that belongs in any custom Defender.

# EXTERIOR

Every inch of the D110 was handcrafted and built precisely the highest level of quality. A Super White full gloss body with eggshell black trim accompanies many firsts on an E.C.D truck. Some additions on Project Savage including a wireless remote Warn winch system allowing for a 50' radius for the remote to the front bumper, and custom E.C.D. wheels sporting a six-spoke eggshell black finish that gives Project Savage a modern look.

- 20" E.C.D. custom made six-spoke eggshell black wheel set including spare wheel

- Tubular winch bumper with 10s Platinum Warn wireless winch system

- Baja Designs Dual Control Amber/White LED Light bar

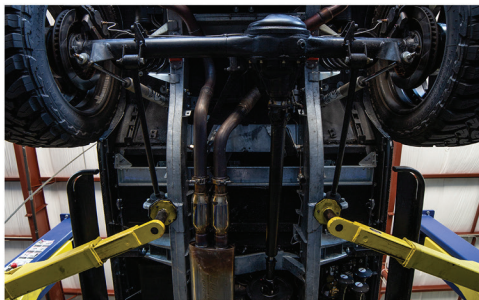

- Swing away wheel carrier gate with back up camera, and black color ladder included on back of the vehicle

- Performance Chevrolet LS3 engine

- Borla performance exhaust system with twin tail pipes
- Upgraded 32 gallon fuel system with braided fuel lines

- Upgraded Fox Suspension system with a 2" lift

- Upgraded Wilwood 6 piston disc brake calipers

# MECHANICAL

The modern looking truck comes as a permanent four-wheel drive with high/low range, but with the limited slip differential in both axels making it helpful in off-road driving. Another first for ECD, a Hydro-boost brake system for better stopping power. All of this accompanied by a 2" lift Fox suspension system and an upgraded 32-gallon fuel tank.

The heart of the truck is run by a performance Chevrolet LS3 engine with upgrades, making it to be one of E.C.D.'s most powerful trucks to date.
